Dr. J. Collis Browne's

CHLORODYNE

COUGHS, COLDS, ASTHMA, BRONCHITIS.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Dr. J. COLLIS BROWNE (late Army Medical Staff) DISCOVERED A REMEDY, to denote which he coined the word CHLORODYNE. Dr. Browne is the SOLE INVENTOR, and as the composition of Chlorodyne and as the composition of Chlorodyne cannot possibly be discovered by anyone, and since the formula is never been published, it is evident that any statement to the effect that Dr. Browne's Chlorodyne must be false. This caution is necessary, as many persons deceive purchasers by false representations.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—See The Times, July 18, 1894.

DR. J. COLLIS BROWNE'S CHLORODYNE IS THE TRUE PALLIATIVE IN NEURALGIA, GOUT, CANCER, RHEUMATISM, TOOTHACHE, RHEUMATISM.

IS THE GREAT SPECIFIC FOR DIARRHOEA, DYSENTERY, CHOLERA.

GENERAL BOARD OF HEALTH, London, REPORT that it acts as a CHOLERA, one dose generally being sufficient.

Dr. GIBSON, Army Medical Staff, Calcutta, states: "Two doses completely cured me of DIARRHOEA."

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which soothes PAIN OF EVERY KIND, affords a calm, refreshing sleep, WITHOUT HEADACHE, and invigorates the nervous system when exhausted.

DR. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALESTATION, HYSTERIA.

IMPORTANT CAUTION.—The IMMENSE SALE of this REMEDY has given rise to many UNSUBSTANTIAL IMITATIONS. Be careful to observe Trade Mark. Of all Chemists, 1s. 14d., 2s. 6d., & 4s. 6d. SOLE MANUFACTURER—J. T. Davenport, 33, Great Portland Street, London, W.1.

TECHNICAL EDUCATION AND THE NAVY.

Engineering, writing on this subject, says that just as in the present era of masts and sails no naval officer could be considered efficient who had not a technical knowledge of the method of propulsion of the ship, so now, in the days of machinery, the naval officer should have technical knowledge of the mechanism which actuates his vessel. Such knowledge is difficult to attain. It means years of study, and what is more difficult, a considerable amount of dirty work around which no heroic traditions have gathered, as they have around the firing of guns. Probably the opposition of executive naval officers to making themselves competent engineers—or allowing competent engineers to become executive naval officers, for it is immaterial in the end which way the matter is stated—arises from that inertia of the human mind. Lieutenant Bellairs says: "If a chief petty officer and a warrant officer could, even for a few years, undergo a lieutenant, as an artificer does an engineer every day of his life in the engine-room and the stokehold, and constantly do the work of his superior officer, then one of the most pressing problems connected with war would be solved. For actual fighting we can replace the lieutenants from the lower ranks, but for navigation and tactics, and for the science of responsibility, we can only fall back on those warrant officers who have been given experience in torpedo craft and gunboats." We (Engineering) have to thank Lieutenant Bellairs for the passages, for they throw a flood of light on what has been to us a somewhat inexplicable phenomenon, as probably it has been to many other engineers. We have often wondered how it was that a section of executive naval officers—for after all it is only a section—should so strongly have opposed engineering taking its proper position in an engineering navy. These gentlemen have been trained in the highest school of honour and manliness, and yet they seem to be actuated by the narrowest spirit of petty jealousy. Yes, we now see it is not so; it is simply want of technical education. For illuminating propensities we would couple the above sentences of Lieutenant Bellairs with the famous statement of Admiral Sir Anthony Hoskins, sometime First Naval Lord, who likened the duties of a naval engineer with those of a Lascar steaming a steam which with a bottle of oil in his hand. Does Lieut. Bellairs know—he hardly can—that the work of an engineering officer is something more than turning on steam, oiling, lowering, and reversing engines in conformity with orders from the bridge; or even taking and working out indicator diagrams? Does he know that there is a difference between engineering and engine-driving? For what purpose does he think that naval engineers have first to undergo a five years' technical course at Keyham if they can learn their duties by 'understudy' in the engine-room or stokehold? No; it may be that Lieutenant Bellairs—and he is evidently an excellent representative of a class—holds that the five years' hard training in scientific principles is quite unnecessary for a naval engineer; indeed, that is obviously the case. But, contrary to Engineering, it is not the opinion of the executive naval officers who established the course, and all those who have since continued it. Neither is it the opinion of Parliament that have voted the money, nor of civilian engineers connected with naval matters.

'If the blood is diseased the body is diseased.'—Remember that the blood, whether pure or impure, circulates through the organs of the human body—Lungs, Heart, Stomach, Kidney, Brain. If it is taken with poisonous matter it spreads disease on its course. In cases of Scarcity, Eczema, Bad Legs, Skin and Blood Diseases, Scabies and Sores of all kinds, the effects of Clarke's Blood Mixture are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Mixture is sold everywhere at 2s. 6d. per bottle. Beware of worthless imitations and substitutes.

In the spring the hair's fancy lightly turns to thoughts of flesh.

CHAMBERLAIN'S COUGH REMEDY LOOSENS the cough, relieves the lungs, and opens the secretions. It counteracts any tendency of a cold to result in pneumonia. It is unequalled for bad colds. It always cures and cures quickly. For sale by All Dealers, Watson & Co., General Agents.

HOBSON'S CHOICE.

[Captain Hobson, who distinguished himself at Singapore and by a kissing expedition in the States, has been meditating on the unparalleled greatness of his country, and publishes his views in an essay, entitled "America must be Mistress of the Seas." According to the Captain, America is so exceedingly superior to all other countries in mental, moral and physical virtues, that she is clearly beckoned "by the finger of fate" to pre-eminence; and to attain this desirable end the navy of the United States must be made to equal the combined navies of the earth. "This could be achieved by the year 1930."]

When I think of my dear
The justice, glory, purity
And truth of Uncle Sam;
When I reflect how good and kind
He is, how great should be,
I world at large, there is, I find,
The only way for thee.

Thou must accept his sovereign sway,
In whom all strength rests;
With neck and body to obey
Each wish and good behest,
Observing what ideals high
Inspire his highest deeds,
And with a humble spirit try
To follow where he leads.

Thou only, world, shalt thus assure
Those priceless blessings three:
A peace, like his, refined and pure
And from corruption free;
No crooked ways thy Trades shall know,
No speculation wild,
And life municipal shall have
All pure and undisturbed.

The crowd of nations—German, "Shove,
And Russia's plans to spread
Her empire, Britain's lawless love
For painting countries red—
Such wicked schemes for land and self
Shall smother Uncle Sam,
Possessing all the earth himself,
Effectually damp.

And if the blind world cannot see
This is a sorry case;
To its true happiness, then we
Must teach the world by deeds.
We'll build a fleet, a mammoth fleet,
The biggest ever planned,
And I am ready, as is most,
To take supreme command.

—Finch.

TO PREVENT CROUP.

BEGIN in time. The first symptom is hoarseness, this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given, all tendency to croup will soon disappear. Even after the croupy cough has developed, it will prevent the attack. There is no danger in given this remedy as it contains nothing injurious. It always cures and cures quickly. For sale by All Dealers; WATKINS Ltd., General Agents.

There is some excuse for poverty, but none for filth.

IMPURITIES IN THE BLOOD.—We have seen hosts of letters from people who have received great benefit from the use of Clark's Blood Mixture. It cannot be too highly estimated for its cleansing and clearing the blood from all impurities. This is a good testimonial from the Family Doctor, which goes on further to say: "It is the best Blood Purifier that science and skill have brought to light, and we can with the utmost confidence recommend it to our subscribers and the public generally." For Scour, Scoury, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, its effects are marvellous. Thousands of wonderful cures have been effected by it. Clark's Blood Mixture is sold everywhere, at 2s. 6d. per bottle. Beware of worthless imitations and emulations.

Insurances.

WHAT YOU
WANT TO KNOW

about a life assur-
ance company is
just what you
would want to know
about a bank or any
other institution
in which you
ought to invest.
What is the company's earning
ability as shown by its past
history?
What is the outlook for future
dividends as indicated by its
accumulated surplus?
These two ques-
tions answered,
and the rest is of secondary
importance. Any
agent of the Equitable
will answer
these questions—
or any others—to
your satisfaction.
